Mr. Ramesh

Adobe Systems

Subject: Application for Software Engineering Intern – Summer 2025

Dear Mr. Ramesh,

I am writing to express my strong interest in the **Software Engineering Intern** position at **Adobe**, as advertised on LinkedIn. I am currently pursuing my B.Tech in Computer Science and Engineering at **Graphic Era Hill University**, and I am enthusiastic about the opportunity to contribute to Adobe's innovative development teams.

Over the past two years, I have built a solid foundation in **data structures, algorithms, and core programming principles**, which has sharpened my problem-solving abilities and coding discipline. Through personal and academic projects, I have gained practical experience in **Java, C++, and Python**, and actively participate on coding platforms like **LeetCode** and **Codeforces**. Additionally, I have worked with modern technologies such as **React.js, Spring Boot**, and **Git** during full-stack web development projects, which have helped me understand end-to-end application design and deployment.

Adobe's legacy of empowering creators through tools like **Photoshop, Illustrator, and Adobe Creative Cloud** has always inspired me. I'm particularly drawn to your focus on **innovation, performance, and user-centric design**—values that align closely with my career goals. The opportunity to work with Adobe's engineering team would allow me to learn from the best while applying my own knowledge to real-world challenges.

Thank you for considering my application. I have attached my resume for your review, and I would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Susparsh Jakhmola
